

FirstCradle Universal

Fits most netbook and notebook computers

FMT Part #: FM-C-UNIV-2

Features:

Our newly redesigned FirstCradle Universal is a rugged, affordable, in-vehicle Netbook or Notebook solution. Special features include:

- **Small footprint** to fit a 9.25 inch Netbook, for secure and affordable in-vehicle computing
- **Expands to over 15.5 inches** to securely hold almost any size notebook computer on the market
- **Innovative locking mechanism** (patent pending) that locks the sliding tray in any position to securely hold computers of varying widths.
- **Steel Housing**, 0.078-inch thick, to withstand the toughest environment.
- **Aesthetic powder-coated finish** Resists fingerprints and scratches
- **Six Adjustable Touch-Points** allow variable bracket height and position to secure your computer in the safest possible position

Service:

- **Full 3-year warranty**
- Installation services available throughout the Continental U.S.

Options:

Parts

- **FM-BKT-UNIV-2:** Mini Brackets are smaller versions of our (2) rear brackets specifically designed to hold smaller Netbooks or Mini Computers.
- **FM-SC-UNIV-2:** Screenholder (not pictured) to secure the laptop screen in place for added safety and stability
- **FM-ISO-E-DOCK:** Isolator Plate to isolate and absorb shock and vibration; fits between the FirstCradle and the tilt-swivel device for added protection.
